In instances where the person is not comfortable discussing the matter with the offending party, a trainer or other 1 SDO staff member should be informed of the situation. In this case it becomes the responsibility of the relevant staff to follow 1 SDO Training Pty Ltd policy and procedures to rectify the situation.

1 SDO Training Pty Ltd has a clearly documented quality administrative and records management system in place to secure the accuracy, integrity and currency of records, to keep documentation up-to-date and to secure any confidential information obtained by 1 SDO Training Pty Ltd and committees, individuals or organisations acting on its behalf.

Upon enrolment, student's details will be entered into the 1 SDO Training Pty Ltd database system. This process initiates the establishment of the student's individual file which is then used to record all future details pertaining to the client. The file is retained by 1 SDO Training Pty Ltd and management of the file will be in accordance with the 1SDO training records policy.

1 SDO Training Pty Ltd is committed to maintaining the accuracy, integrity and currency of all student files, as well as ensuring appropriate security of all records to uphold confidentiality and protect student privacy. 1 SDO management will undertake a validation of the training records of approximately 5% of registered students and report the findings at the monthly management meeting.

Completed assessments

Each and every assessment submitted by every student will be retained for a minimum period of six (6) months. At the expiration of six (6) months period, the student's assessments will be scanned and stored electronically for thirty (30) years.

When in paper format, student's work will be filed according to the competency/unit number, competency/unit cluster or alphabetically according to the students' names. Individual student records will be stored in a lockable steel filing cabinet in a locked secure office area. If the files are stored in a location where student or public access is possible, the cabinets will remain locked.

For ease of application and consistency, a similar filing process will be used for electronic files. The electronic records are stored utilising AVETMISS compliant software and access is restricted by a password system.

Results of assessment records

Student assessment results will be recorded electronically within the 1 SDO Training Pty Ltd database system. This information may be used to provide annual competency completion reports and/or AVETMISS reports, as required.

- Sufficient information to re-issue the testamur, if required, will be retained
- Results of assessment will be retained for thirty (30) years

Security

1 SDO Training Pty Ltd ensures further security of records by complying with the storage requirements detailed in ASQA's General directive: *Retention requirements for completed student assessment items*, 22 June 2012. This directive includes requirements for storage including: safeguards against unauthorised access, fire, flood, termites or any other pests, and to ensure that copies of records can be produced if the originals are destroyed or inaccessible. 1 SDO Training Pty Ltd enhances its compliance with this directive by protecting electronic files with up-to-date virus protection, firewall and spy ware protection software.

The data management system is Cloud based and offers the security and integrity expected of a reputable Cloud storage system. In addition, electronic records are copied to a portable hard drive, every four (4) week period. The portable hard drive is stored off site in a fire proof secure location.

1 SDO Training Pty Ltd software and hardcopy systems will retain student's results for a period of no less than thirty (30) years. If requested, enrolment information, training and assessment information or results of assessment will be provided in electronic format wherever possible.

Paper based records will be scanned and saved in Adobe PDF format. Paper records will be securely shredded every twelve (12) months in accordance with 1 SDO Training Pty Ltd CEO's directions.

A copy of each testamur issued is scanned and retained in Adobe PDF format. If requested, the testamur may be re-printed at any time within the thirty (30) year period after issue. This method ensures the original format, design, signature, date and units of competency are re-printed accurately and with a minimum of effort and expense.

The database system is used and data/files/records are converted and saved in Adobe PDF format. 1 SDO Training Pty Ltd has chosen Adobe PDF because research indicates this software will be able to be opened and read for up to thirty (30) years.

Ceasing operation

In the event that 1 SDO Training Pty Ltd ceases to operate, its records will be transferred to ASQA in the appropriate format and detail as specified by the Department at the time of ceasing RTO operations.

All other records including training records, taxation records, business and commercial records will be retained for a period of at least seven (7) years.

1 SDO Training Pty Ltd will ensure that any confidential information acquired by the business, individuals, or committees or organisations acting on its behalf is securely stored.

Access to Records

1 SDO Training Pty Ltd has implemented a record management system that ensures that all students have access to accurate information regarding their learning in a timely fashion. To ensure this, employees are informed of their responsibilities for record keeping and the process is monitored through the continuous improvement process and improved where necessary. This section outlines the data management procedures that support this records management system.

Access to student records

Access to individual student training records will be limited to those required by the Standards, such as:

- Trainers and assessors to access and update the records of the students whom they are working with
- Management staff as required to ensure the smooth and efficient operation of the business
- Officers of ASQA or their representatives for activities required under the standards for registered training organisations

1 SDO Training Pty Ltd trainers and assessors will maintain accurate and current records of each student's progress and achievement of competencies in the area of their study. These records will be entered on the 1 SDO Training Pty Ltd database system during training and assessment or immediately at the completion of training and assessment.

As students complete each competency, the trainer or assessor will check the achievements against the relevant qualification packaging rules and sign off successfully completed competencies.

All details of full or partially completed competencies will be recorded and stored on the student's file.

Upon completion of all relevant competencies within a qualification, the student will be entitled to receiving the full qualification. The certificate and academic record and / or statement of attainment will be produced and signed by 1 SDO management, trainer and / or assessor, and presented to the student.

A scanned electronic copy of all signed qualifications issued will be converted to PDF format and secured in the student's file.

Student Access to Records

Students have the right to request information about or have access to their own individual records. 1 SDO trainers and assessors or administration staff will provide the requested information or access. Students also have the right to request a hard copy of their own individual file that can be supplied as a printout from records retained within the data management system.

You should feel free to ask your 1 SDO Training Pty Ltd trainer and assessor or administration staff at any time for a printout of your progress.

Privacy

1 SDO Training Pty Ltd considers student privacy to be of utmost importance and will practice a high standard of care and concern in regard to maintaining student privacy in all aspects of business operations. Any persons external to the organisation acting on behalf of 1 SDO Training Pty Ltd are made aware of the confidentiality procedures and privacy policies prior to commencing work with 1 SDO.

1 SDO Training Pty Ltd will comply with all legislative requirements including the Privacy Act 1988 (Commonwealth) and Australian Privacy Principles (2014). The Privacy Amendment (Enhancing Privacy Protection) Act 2012 (Privacy Amendment Act) made many significant changes to the Privacy Act 1988 (Privacy Act). These changes commenced on 12 March 2014. The Privacy Regulation 2013, made under the Privacy Act, also commenced on 12 March 2014.

1 SDO Training Pty Ltd ensures no student information is disclosed without the student's consent, except as required by law or in adherence to the Standards. Student consent must be obtained in writing from the student, unless the student is under the age of 18 years, in which case written consent from their parent or guardian must be obtained. Consent to disclosure of information forms and / or letters will be recorded.

Recognise Qualifications of Another RTO

1 SDO Training Pty Ltd will recognise all AQF qualifications and statements of attainment issued by any other RTO. If any ambiguity is detected when validating a student's certification, 1 SDO will seek verification from the relevant RTO before recognising the qualification or statement of attainment.

Procedure for Recognition of Qualifications

Students enrolling with 1 SDO Training Pty Ltd will be made aware of the recognition of qualifications policy by 1 SDO staff at the time of enrolment to offer the opportunity of recognition of relevant qualifications or statements of attainment prior to the commencement of training. 1 SDO trainers will remind students of the policy progressively throughout the duration of their course.

When a student presents an AQF qualification or statement of attainment to a trainer or staff member, a copy of the certificates will be taken and submitted to 1 SDO Training Pty Ltd for verification. 1 SDO Training Pty Ltd will verify the authenticity of the qualification or statement of attainment.

The verified copy of the qualification or statement of attainment is placed in the student's file. Once verification of the qualification or statement of attainment has been established, 1 SDO staff will inform the student and offer exemption from the relevant unit(s) of competency. Staff will ensure the student is aware of and understands what component(s) of their training and assessment are affected.

1 SDO staff will update the student's records accordingly.

Credit Transfer

Credit transfer refers to the transferral of academic credit obtained by students through participation in courses or national training package qualifications with other RTOs, towards a qualification offered by 1 SDO Training Pty Ltd. Credit transfer is granted on the basis that the credit validates the student's competency within the relevant qualification / unit of competence. Credit transfer of a qualification / unit of competence is available to all students enrolling in any training program offered by 1 SDO Training Pty Ltd.

Unique Student Identifier

The [Unique Student Identifier \(USI\)](#) scheme, enabled by the Student Identifiers Act 2014, allows students to access a single online record of their VET achievements. The scheme also allows for reliable confirmation of these achievements by employers and other RTOs. The online system provides each student with a USI.

The USI scheme will provide a national online authenticated record of student's training attainment and will serve as a building block for a range of vocational education and training reforms. Over time, the ability of students to access and share their training records will make enrolment processes more efficient for training providers and students. Training providers will have access to an online information source to manage student transfers between training providers, and the assessment of credit transfer and pre-requisites.

1 SDO Training Pty Ltd will only issue a qualification or statement of attainment to a student after the student has provided a verified USI or 1 SDO applies for a USI on behalf of the student. To avoid any delays in issuing certification documentation 1 SDO will ensure that student's USIs are applied for or verified USI at the time of enrolment.

1 SDO Training Pty Ltd will protect the security of all information related to USIs. Security measures are in place to protect both digital and hard-copy records from loss, damage or unauthorised access. 1 SDO stores paper based records in locked cabinets. Digital records are backed up on a Cloud system. All AQF certification documentation issued by 1 SDO is kept for 30 years. Where a qualification or statement of attainment is recorded in the USI scheme, 1 SDO does not retain additional records to demonstrate this because the required records will exist within the USI scheme.

When reporting data about the training, each record of nationally recognised training that is provided to the national centre for vocational education research (NCVER) national VET provider collection will have a USI attached. This USI will be able to be used to draw down on this data collection in real time. This means that, in the future, students will be able to draw down a record of their VET achievements from one place. They can view this online or they can use the data to develop a transcript that they can attach to a job application, for example.

The USI will be increasingly useful for 1 SDO Training Pty Ltd when as the data builds, 1 SDO Training Pty Ltd (with the student's permission) will be able to draw down information about that student's previous VET attainments throughout Australia. This will assist with assessing student's admission to courses, for credit transfer and in some circumstances, their eligibility for funding. More information is available from the [Department of Industry's website](#) where a comprehensive [video](#) outlines the USI scheme for 1 SDO Training Pty Ltd staff.

Exemptions from the USI

<http://usi.gov.au/Pages/exemptions.aspx>

The Industry and Skills Council of Ministers has determined a range of exemptions from the Unique Student Identifier (USI) scheme and a consequential amendment to the National VET Provider Collection Data Requirements Policy. Where an exemption applies, training organisations will be able to issue VET qualifications or statements of attainment to students who do not have a USI and will not be required to include a USI in respect of those students in any submission of AVETMISS compliant data to the National VET Provider Collection.

Exemptions for training organisations

Training organisations exempted by their Regulator from the need to collect and submit AVETMISS compliant data on nationally recognised training activities on the grounds that submission of such data would conflict with defence or national security legislation and/or could jeopardise the security or safety of defence, border protection, customs, national security or police personnel will continue to be exempted from the submission of AVETMISS compliant data and will not be required to participate in the USI scheme.

Training organisations exempted by their Regulator from the need to collect and submit AVETMISS compliant data on nationally recognised training activities on the grounds that doing so would adversely affect their ability to continue to deliver vital community services to the Australian community are exempted as follows:

- For training delivered before 1 January 2016, in respect of all nationally recognised training activity
- From 1 January 2016, the exemption from the USI and AVETMISS reporting will apply only in respect of training activity not delivered on a fee-for-service basis. Therefore, these training organisations will be required to submit AVETMISS compliant data and participate in the USI scheme in respect of all nationally recognised training delivered on a fee-for-service basis. This will ensure that competitive neutrality applies to registration requirements for training organisations. To give effect to this arrangement the [National VET Provider Collection Data Requirements Policy](#) has been updated.
- For training activity before 1 January 2017, training organisations delivering single day training courses will be permitted to issue a VET qualification or a VET statement of attainment to students who have not been able to provide a USI before completion of training. This transitional arrangement is intended to give training organisations specialising in this type of training activity time to develop their business processes

and will be expected to participate fully in the USI scheme from 1 January 2017. However, during 2016 these training organisations must still:

- record and verify a USI where it is provided by the student before completion of training; and
- submit AVETMISS compliant data in respect of all nationally recognised training delivered, including to those students who do not provide a USI.

Where such exemptions exist, 1 SDO Training Pty Ltd will inform students in writing prior to either the completion of enrolment or commencement of training and assessment, whichever comes first, that their assessment results will not appear on their authenticated VET transcript or be available to them via the USI System. 1 SDO Training Pty Ltd will also retain evidence that they informed the student of this exemption in the student management system.

Exemptions for individuals

Exemptions are provided for an individual where:

- the individual is an offshore international student studying outside of Australia -this means that international students who are enrolled with an Australian training organisations but are not in Australia while undertaking their training do not require a USI in order to receive a VET qualification or statement of attainment. However, training organisations will still be required to submit AVETMISS compliant data in respect of their offshore international students.

In addition, individuals who have a genuine personal objection to being assigned a student identifier will be able to [apply for an exemption to the Student Identifiers Registrar](#).

TRAINING AND ASSESSMENT

1 SDO Training Pty Ltd is committed to delivering high quality training and assessment services that exceed the expectations of their students. To ensure this, 1 SDO has implemented processes for data collection and analysis within its operations that ensure the continuous improvement of training and assessment. Continuous improvement measures in this area respond to the results of data analysis and involve all internal and external stakeholder groups.

The quality and continuous improvement policy and procedure defines the methods of data collection and analysis. In order to provide high quality outcomes to their clients and students, 1 SDO Training Pty Ltd ensures that strategies for training and assessment are developed with effective consultation with industry and stakeholders.

Principles of Training and Assessment

Training and assessment strategies developed by 1 SDO Training Pty Ltd will adhere to the following principles:

- Training and assessment strategies are developed for each qualification / unit of competency that will be delivered and assessed
- All training programs will require the development of a training and assessment strategy for full and partial completion of a qualification
- Each training and assessment strategy will be developed in consultation with industry representatives, trainers, assessors and key stakeholders
- Training and assessment strategies will reflect the requirements of the relevant training package and will identify target groups
- Training and assessment strategies will be validated annually through the internal review procedures

Quality training and assessment principles

1 SDO Training Pty Ltd will apply the *Principles of Assessment and the Rules of Evidence*.

Principles of assessment

To ensure quality outcomes, assessment should be:

- Fair
- Flexible
- Valid
- Reliable

Fair

Fairness in assessment requires consideration of the individual student's needs and characteristics, and any reasonable adjustments that need to be applied to take account of them. It requires clear communication between the assessor and the student to ensure that the student is fully informed about, understands and is able to participate in the assessment process, and agrees that the process is appropriate. It also includes an opportunity for the person being assessed to challenge the result of the assessment and to be re-assessed if necessary.

Flexible

To be flexible, assessment should reflect the student's needs; provide for recognition of competencies no matter how, where or when they have been acquired; draw on a range of methods appropriate to the context, competency and the student; and support continuous competency development.

Valid

Assessment is valid when the process is sound and assesses what it claims to assess.

Validity requires that:

- Assessment against the units of competency must cover the broad range of skills
- Knowledge that are essential to competent performance
- Assessment of knowledge and skills must be integrated with their practical application
- Judgement of competence must be based on sufficient evidence (that is, evidence gathered on a number of occasions and in a range of contexts using different assessment methods). The specific evidence requirements of each unit of competency provide advice on sufficiency

Reliable

Reliability refers to the degree to which evidence presented for assessment is consistently interpreted and results in consistent assessment outcomes. Reliability requires the assessor to have the essential competencies in assessment and relevant vocational competencies (or to assess in conjunction with someone who has the vocational competencies). It can only be achieved when assessors share a common interpretation of the assessment requirements of the unit(s) being assessed.

Rules of Evidence

These are closely related to the principles of assessment and provide guidance on the collection of evidence to ensure that it is:

- Valid
- Sufficient
- Authentic
- Current

Valid

Assessment is valid when the process is sound and assesses what it claims to assess.

Sufficient

Sufficiency relates to the quality and quantity of evidence assessed. It requires collection of enough appropriate evidence to ensure that all aspects of competency have been satisfied and that competency can be demonstrated repeatedly. Supplementary sources of evidence may be necessary. The specific evidence requirements of each unit of competency provide advice on sufficiency.

Authentic

To accept evidence as authentic, an assessor must be assured that the evidence presented for assessment is the student's own work.

Current

In assessment, currency relates to the age of the evidence presented by a student to demonstrate that they are still competent. Competency requires demonstration of current performance, so the evidence collected must be from either the present or the very recent past.

Connecting Training and Assessment with the Workplace

To maximise the outcomes for students, 1 SDO Training Pty Ltd ensures that every opportunity to connect training and assessment with the workplace is utilised. Opportunities will be developed in consultation with the relevant workplace personnel and responsibilities clearly communicated to all involved.

To identify a range of delivery and assessment methods that meet a variety of needs, an ongoing schedule of industry liaison and consultation will be adhered to. These consultations will be documented with meetings and memorandums acknowledged by those industry and enterprise representatives involved in consultation relative to the development of assessment strategies.

Students enrolled in a traineeship program will normally be working for an employer within the industry. In some circumstances employers may offer a contribution towards the cost of training and assessment, which is encouraged by 1 SDO Training Pty Ltd.

1 SDO Training Pty Ltd will:

- Involve workplace personnel in planning workplace programs, where they are relevant to the training and assessment program
- Ensure that the training and assessment program makes full use of opportunities at the workplace
- Monitor each student's progress and the support provided to them by workplace personnel
- Consult with workplace personnel in the development of workplace training and assessment processes
- Inform workplace personnel of their training and assessment roles and responsibilities, and accept these responsibilities, where relevant to the training and assessment program
- Monitor support provided to each student by workplace personnel
- Monitor the student's progress

Information from workplace personnel is used to continuously improve training and assessment. A number of programs that engage employers or other parties who contribute to each learner's training, assessment and support services to meet their individual needs are available. Refer to 4.5 (Apprenticeships and Traineeships) below for examples of programs, government initiatives and opportunities for employers to be engaged with training and assessment.

Assessment Policy

1 SDO Training Pty Ltd acknowledges the critical role that assessment plays in determining the competency of students. In developing the assessment (including RPL) for each qualification and unit of competence, the CEO will ensure:

- Compliance with the assessment guidelines from the relevant training package, qualification and unit of competence of accredited course
- Assessment leads to a qualification or statement of attainment under the Australian Qualifications Framework (AQF)
- Assessment complies with the principles of competency based assessment and informs the student of the purpose and context of the assessment
- The rules of evidence guide the collection of evidence to support the principles of validity and reliability
- The application of knowledge and skills is relevant to the standard expected in the workplace, including skills for managing work tasks, contingencies and the job environment
- Timely and appropriate feedback is given to students
- Assessment complies with 1 SDO's access and equity policy
- All students have access to re-assessment on appeal

1 SDO Training Pty Ltd implements an assessment system that ensures that assessment (including Recognition of Prior Learning) complies with the assessment requirements of the relevant training package or VET accredited course. 1 SDO Training Pty Ltd recognises that each unit of competency contains assessment requirements relating to; performance evidence, knowledge evidence and assessment conditions.

Training Guarantee

In the extremely unlikely event of a business interruption or training failure by 1 SDO Training Pty Ltd or a third party delivering training and assessment on its behalf, students may be transferred to another similar course with another RTO or approved third party at no additional cost to the student, for example. 1 SDO Training Pty Ltd will comply with ASQA requirements and exit strategies for any student's enrolments at risk.

RECOGNITION OF PRIOR LEARNING

Recognition of prior learning means recognition of competencies currently held, regardless of how, when or where the learning occurred. These competencies may be attained through any combination of formal or informal training and education, work experience or general life experience. In order to grant RPL, the assessor must be confident that the student is currently competent against the endorsed industry or enterprise competency standards or outcomes specified in Australian Qualifications Framework accredited courses. The evidence may take a variety of forms and could include certification, references from past employers, testimonials from clients and work samples. The assessor must ensure that the evidence is authentic, valid, reliable, current and sufficient.

1 SDO Training Pty Ltd appreciates the value of workplace and industry experience, and recognises that students will acquire vocational skills and knowledge from a variety of sources other than formal training. These skills are legitimate irrespective of how they were acquired and the RPL process is designed to provide validation of such relevant skills.

1 SDO Training Pty Ltd's Recognition of Prior Learning Process

Recognition of Prior Learning (RPL) is an assessment process that assesses an individual's formal, non-formal and informal learning to determine the extent to which that individual has achieved the required learning outcomes, competency outcomes, or standards for entry to, and / or partial or total completion of a VET qualification.

The recognition of prior learning (RPL) process will be offered to and explained to all relevant students. All students will have access to 1 SDO Training Pty Ltd's RPL policy which is contained in the 1 SDO student handbook and is available on request.

Students who believe they have already obtained current skills and knowledge that would otherwise be covered in the qualification / unit of competence for which they intend to attain, should apply for RPL at the time of enrolment. The student's skills and knowledge will be assessed and validated, and where appropriate, units of competency acknowledged and face-to-face training reduced.

As part of the 1 SDO Training Pty Ltd enrolment policy, trainers will advise students of the availability of RPL policy, explain what the process involves and how it relates to the attainment of the qualification in some circumstances. Trainers will remind students of this option progressively throughout their time in training, in order to provide multiple opportunities for students to engage in the RPL process.

When approached by a student seeking RPL, trainers will:

- Provide the student with copies of an RPL Introduction Letter
- Provide the student with information about the types of evidence that can be used to support an RPL application

Recognition of prior learning fee

The student will be charged 50% of the scheduled course fee. This includes the initial application, consultation either in person or via phone with the suitably qualified assessor, the RPL assessment and (if successful) certification.

Where the student is not able to achieve the full qualification through RPL and gap training is required, a training plan and costing structure will be mutually agreed upon. The basis of the cost structure will be pro-rata on a unit by unit basis based on the scheduled course fee.

Flexible delivery and assessment procedures

1 SDO Training Pty Ltd recognises that some people are better suited to learning via teaching methods not usually obtained in the traditional classroom setting. The staff and management of 1 SDO respect these differences among students and will endeavour to make any necessary adjustments to their methods in order to meet the needs of a variety of students. For example, the inability to complete a written assessment will not be interpreted as a sign of incompetence, provided the student can verbally demonstrate competency.

Acceptable adjustments to teaching and assessment methods may include, but are not limited to; having a trainer read assessment materials to students, having a student's spoken responses to assessment questions recorded or allowing a student to sit for an assessment alone in a different room.

1 SDO staff will pursue any reasonable means within their ability to assist students in achieving the required competency standards. Reasonable adjustment

Reasonable adjustment means adjustments that can be made to the way in which evidence of student performance can be collected. Whilst reasonable adjustments can be made in terms of the way in which evidence of performance is gathered, the evidence criteria for making competent / not yet competent decisions (and / or awarding grades) should not be altered in any way. That is, the standards expected should be the same irrespective of the group and / or individual being assessed; otherwise comparability of standards will be compromised.
